

To apply for the Program Funds:

- The chapters must be current with their \$50 membership. If your chapter currently does not have a membership, and your chapter joins between now and September 30, 2014 the membership will be good until 10/1/2015.
- Because financial responsibility is important for independent living, we would like each chapter receiving funds from SUFU to have and use a banking account. To receive these funds the chapters need to open a bank account to deposit the funds into.

SUFU has made arrangements with KeyBank to provide basic accounts without a minimum balance and service charges. You would use SUFU's tax ID to do this but it would be the chapters account with your own signers, and the SUFU Board will not have access to these funds.

We would need verification that the account is open and current when you submit the application.

Contact a SUFU Staff person for an application for KeyBank.

A chapter can choose a different bank, but you would need to set everything up yourselves.

- We will need the date the chapter approved the request.
- Preference for funding will be given to programs that will have a training component to them.
- Please complete the application below.
